ATTENTION

Atlantic Cardiology would like to inform all patients that we are now completely electronic. There are many benefits to this for both patients and office staff.

Now that we are electronic, so are our prescriptions. This is called E-PRESCRIBING. E-Prescriptions arrive directly in the pharmacy's computer system from our office. This improves practice efficiency and the timeliness of medication delivery to the patient.

Patients will now have to request their refills to their pharmacy. Please let your pharmacy know that we use SureScripts. Your pharmacy will then send an electronic request to your cardiologist. Your doctor will simply process your prescriptions and insert how many refills. The patient should give the pharmacy at least 24 to 48 hours notice for refills to process.

ALL patients should call our GALLOWAY office in the event that they have any questions, concerns, or issues with any medications. If you are seen in the Ventnor office, please note that we do NOT always have a doctor present or a technician present to assist you. So you NEED to call (609) 652-0100 for Medical Records, Pre-Certifications, and Forms.

As a reminder to all patients, we are a Cardiologist office and we will ONLY fill cardiac medications. Patients NEED to contact their PRIMARY CARE DOCTOR for other medications. In the event that you do not have a Primary Care Doctor, we will be more than happy to refer one to you.

Thank you for your cooperation.
